DISCLAIMER: This information is provided as a courtesy only, no warranty expressed or implied, is made as to the current validity of this information. Unsecured abandoned mines may be present near the trails for your safety, never enter abandoned mines. The BLM is not liable for any incidents arising from the use of the information presented here-each user is solely responsible for their own safety while enjoying their public lands. Produced March 2022.

**\*Roads Disclaimer**  
Roads and routes within the BLM Monticello Field Office are mostly dirt, clay, sand, gravel or rock. These roads and routes are subject to flooding and may be impassable when wet. High clearance four-wheel drive vehicles are recommended for most routes, but some require an All Terrain Vehicle (ATV). Conditions change, so please inquire at the BLM Monticello Field Office for current driving conditions and plan ahead.  
Leave gates as you find them (whether open or closed) and respect private property.

**RESPECT PROTECT**  
A Tread Lightly! Campaign

Archaeological sites and artifacts are an important and irreplaceable part of America's heritage. Please visit these places respectfully.  
Fossils are fragile, please do not walk on them. Molding fossil tracks causes damage to the fossil and is not permitted.  
For more information about the BLM and Tread Lightly's campaign to eliminate the looting and vandalism of archaeological and paleontological resources in Utah, visit: [TreadLightly.org/programs/respect-and-protect/](https://treadlightly.org/programs/respect-and-protect/)

### What you can do to protect ancient and sacred places

**VIEW SITES FROM A DISTANCE:** Many indigenous peoples consider this landscape sacred, and numerous Tribal Elders ask visitors to view sites from a distance. This small act honors Tribal beliefs and protects cultural resources from the destructive effects of visitation, like erosion.

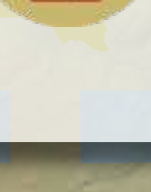

**LEAVE ALL ARTIFACTS:** Keep discovery alive. Leave all artifacts where you find them so the next person can share the experience. It's illegal to move or take any artifact, including historic trash, from public lands.

**AVOID BUILDING CAIRNS:** Keep the landscape natural by leaving only footprints. Cairns can increase impacts on sensitive sites and are frequently constructed with artifacts like grinding, construction or shrine stones.

**CAMP & EAT OUTSIDE THE SITE:** Camping, fires and food can damage the archaeological remains and also spoil the view for other visitors.

**GPS REVEALS TOO MUCH:** GPS points often lead uneducated visitors to sensitive sites. When posting online about your trip, remove all references to location.

### Visit with Respect

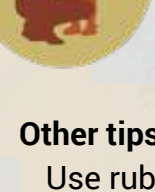

**STEER CLEAR OF WALLS:** Historic and prehistoric structures can be easily damaged. Please refrain from touching, leaning, standing or climbing on any structures, no matter how solid they look.

**DOGS ARE BEST OUTSIDE:** Keep pets leashed away from archaeology where they won't dig, poop or cause erosion inside a site. Also, know where dogs are and are not allowed.

**DON'T TOUCH ROCK ART OR MAKE YOUR OWN:** Vandalism of petroglyphs and pictographs erases stories of ancient people and destroys the experience for future visitors.

**TEACH KIDS RESPECT:** Archaeological sites are not playgrounds. Please teach children respect. Keep a close eye so kids don't get hurt or accidentally damage the site.

**Other tips for visiting places of cultural, historical and scientific value:**

Use rubber-tipped hiking poles

Go to the bathroom away from sites

Pay your fees

Historic trash isn't garbage

Don't build fire rings

Don't grind in grinding slicks
